

EmBraille

The ViewPlus EmBraille is the world's lowest cost Braille embosser.

- The EmBraille incorporates a cost-effective technology using a polymer platen
- Produces smooth, **rounded** Braille dots for improved readability
- Is compact and lightweight, easy to take along
- Provides input for both endless tractor fed **and** single cut sheet paper

The **EmBraille** is especially designed to provide a **low cost, easy to operate solution** for printing Braille. The EmBraille technology, using a polymer platen, creates **smooth, rounded dots** allowing extensive Braille reading without straining your fingertip.

Tactile Graphics using variable dot heights will be produced **combined with Braille** text, utilizing the same setup and printing process as mainstream color printers under Windows operating system. Now the EmBraille also features the **TigerPlus** technology, which allows to choose between different Braille dot spacing standards to be embossed along with 100 DPI resolution tactile graphics.

In **legacy mode**, the EmBraille will also work with **Braille note takers**.

Endless tractor feed paper, or single standard cut sheets can be used with the EmBraille to meet the user's printing needs.

The compact and lightweight EmBraille is the ideal solution to **take along on travels** as well. A portable **travel case** with pull-out handle and wheels is also available through ViewPlus.

Though all ViewPlus embossers are compatible with other Braille translation software, like Duxbury, and RTFC, ViewPlus also offers the **Tiger Software Suite (TSS)** for Braille translation, tactile graphics design and more. TSS comes FREE with ViewPlus embossers and allows the user to create Braille documents in standard Windows programs such as MS Word and Excel without needing to know Braille.

The tactile graphics editor, **Tiger Designer**, which is part of the TSS package, allows editing of the print data visualized on screen in 1-to-1 correlation as it would appear on the embossed output.

Specifications:

Print Speed: Up to 25 CPS

Printing Mode: Single sided

Tactile Resolution: 100 DPI

Minimum Dot Spacing: 1/17 in

Tactile Graphic Dot Heights:
Variable for color representation

Braille Dot Heights:
Adjustable in 3 heights

Braille Dot Spacing:
Adjustable to 5 international standards

Paper Width: 3 - 8.5 in
(77 - 216 mm)

Paper: Continuous,
Single Sheet Feeder

Paper Weight: 30 - 108 lb
(50 - 175 gsm)

Connection: USB (1.1, 2.0)

Compatibility: Current Windows
operating systems, Mac OS 10.9+

Height: 6.25 in (159 mm)
Width: 14.13 in (359 mm)
Depth: 11.2 in (285 mm)
Weight: 11 lbs (5 kg)

Recommended Temperature:
41 - 95 °F (5 - 35 °C)

Humidity: 20 - 80% RH
(non-condensing)

Energy Supply:
100 - 120 V, 220 - 240 V
50/60 Hz (+/- 3%)

Standby: < 4 W

Heavy embossing: < 85 W
